# LongSpan Systems

*Solid Construction, Superior Performance*

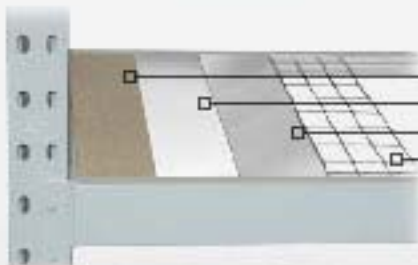

## Beam Section

- Extruded stepped beam section allows flush fitting of board, easy loading, protects front and rear edges of shelf insert
- Fully welded construction
- Precision fitting 3 prong connectors for extra stability
- Safety locking pin prevents accidental dislodgement

## Frame

- Exceptional strength and rigidity thanks to intelligent post section design, preventing twist and flex
- Heavy-duty flanged cross bracing with safe edge
- Narrow post section makes the most of your area, maximizing lineal storage space
- Rounded post holes for even load distribution down post
- 50mm pitch allows maximum shelf level adjustability
- Designed to suit bottom beam level

## Shelf Inserts

- 18mm particleboard – strong and reliable
- 18mm melamine – clean dust free surface
- Galvanised sheet steel – heavy duty corrosion resistant
- Mesh – food or temperature controlled environments
- Suits APC Uni-Shelving® Colorbond® shelves
- Front to back supports reinforce shelf inserts

## Footplates

- Heavy duty footplate supplied as standard to protect floor
- Can be anchored to concrete floors
- Plastic footplates available for delicate surfaces

## Accessories

- Plastic post caps for safety & aesthetic finishing
- Apparel hang bars
- Pegboard and louvre panels
- Plastic parts bins
- Wire basket binning
- Decorative finishing panels
- Product and safe working load labels

## Applications

The most versatile product of its kind on the market; Uni-Span's modular construction means compatibility with other quality APC products: Uni-Shelving®, Plastic Bins, Pallet Racking etc.

- Designed for: Box storage, archive shelving, retail display, spare parts, storerooms, benches, seatainers, stationery stores, warehouses, any industrial or commercial application.
- Also useful for: Large, bulky and heavy items, long, odd shaped or awkward products.
- Specialised uses such as clothes, tyre storage and multi-tier storage systems.

## Assembly

Uni-Span's premium quality construction makes assembly easy. Simply:

- Stand up frames
- Clip in beams
- Drop down shelf
- No tools, nuts or bolts required

## Standard Sizes

<b>Beam Spans (mm)</b>	1200, 1800 & 2400
<b>Frame Heights (mm)</b>	1800, 2100 & 2400
<b>Frame Depths (mm)</b>	450, 600 & 840

## Finish

- Stylish design suits both office and warehouse environments
- Electrostatically Pow dercoated for smooth & durable finish – NOT painted or baked enamel
- APC Grey pow dercoated finish as standard – corporate colours available on request
- High tensile steel construction
- Frames supplied fully assembled

Whether you're designing a new warehouse or reconfiguring an existing facility, APC Storage Solutions offer an extensive range of quality products designed to give you a rapid return on investment, reduction in labour costs, higher productivity and a safer, more efficient operation.

**Industrial**

**Pallet Racking**

Guarantees the best quality racking available

**Drive-in Racking**

First-in last-out high density pallet storage

**Raised Storage**

Double your floor space, - strongest stairs around

**Cantilever**

Structural construction for irregular loads

**Shelving**

**Aislesaver**

Smooth, easy middle shelving maximizes space

**UniShelving**

Robust modular B.as adjustable shelving

**UniSpan**

Superior performance medium duty longspan

**Retail Shelving**

Steel display shelving for retail environment

**Small Parts**

**Density Drawers**

Systematic storage for organizing tools B. parts

**Steel Cabinet**

Economical B. versatile for secure storage

**Work Bench**

Heavy duty modular work stations

**Parts Bins**

A wide range of quality polyprop storage bins

**Office**

**Lockers**

Strong, secure storage for personal items

**Filing Cabinet**

AFRD approved with 5 year warranty

**Tambour Door**

Stylish fully retractable slat doors conceal goods

**Multimedia Unit**

Dynamic storage for DVDs, CDs, cassettes, etc

**Cages & Safety**

**Pallet Cage**

Stackable B. collapsible to suit standard pallet

**Stilage Cage**

Industry benchmark heavy duty transport units

**Man-Up Cage**

Top quality for lifting personnel in safety

**Rack Protection**

Prevent damage to valuable pallet racking
