Steel Shelving Solutions

Robust Construction, Modular Assembly

APC Universal Shelving® is designed and built to solve any storage problem—safely, quickly and economically. There is a wide range of **Uni-Shelving®** Systems available, all ruggedly constructed from high quality Australian **COLORBOND®** Steel. **Uni-Shelving®** is manufactured using the latest in roll forming technology.

Applications

- Applications include use in warehouses, offices, workshops, spare parts, retail, hospitals, schools, libraries and even mobile storage.
- The efficient design and versatility of **APC Uni-Shelving®** (utilising modular construction) enables the system to be designed and built to suit a diverse range of applications.

Uprights

- APC Uni-Shelving® has one-piece solid uprights with a rolled front edge for additional strength, safety and aesthetic appeal. Various thicknesses are available for different load applications.

Shelves

- Shelf levels are easily adjusted in 25mm increments and locks into position with strong shelf dips without the use of nuts, bolts or tools.

Backing

- Solid back panels or bracing provide additional stability.

Kick Plates

- All shelving bays are fitted with solid kick plates.

Flexibility

APC Uni-shelving® is designed to suit your ever changing needs. The flexibility of the product accommodates additions or alterations at any stage, with a minimum of fuss or disruption to your day to day operation. Shelf levels are easily adjustable in 25mm increments.

Capacity

A range of capacities are available for a variety of applications from 50kgs to 250kgs Uniformly Distributed Load (UDL) per shelf level.

Finish

All **APC Uni-shelving®** components are manufactured in our standard Cyber Grey or Magnolia Beige **COLORBOND®**.

The APC Colorbond® steel consists of a metallic coated **ZINCALUME®** G300 substrate with a **COLORBOND®** coating on both sides consisting of a conversion coating, universal corrosion inhibitive primer and finish coat.

ZINCALUME® G300 steel is a hot-dipped zinc/aluminium alloy-coated structural steel, normally used in the construction of steel roofing. This top quality BlueScope steel goes into every **APC Uni-Shelving®** component, making for an incredibly robust shelving system.

COLORBOND® and ZINCALUME® are registered trade marks of BlueScope Steel Limited. BlueScope is a registered trade mark of BlueScope Steel Limited.

Accessories

- File racks loop & toaster style
- Drawers
- Reference shelves
- Plastic parts bins
- Cover panels
- Shelf labels
- Lateral filing
- Apparel hang bars

Standard Sizes

Bay Heights (mm)	1875, 2175 & 2375
Bay Widths (mm)	750, 900 & 1200
Bay Depths (mm)	300, 400, 450, 500 & 600

- Special sizes can be manufactured on request
